

Home & Yard Maintenance

Winkler Senior Centre has implemented a Home & Yard Maintenance program. The purpose of this program is to provide a service to older adults or those who may have physical limitations which prevent them from performing tasks safely and effectively. These services are in place to provide the client with a reasonable rate, as well as the assurance the fee for service workers has provided satisfactory background checks to the WSC Resource Coordinator.

We are looking for Qualified Housekeepers, Home Maintenance individuals and Yard Maintenance individuals to be put on our program's referral list. This list is used when clients request these services. We cannot guarantee any amount of work as the frequency of the services are provided based on client requests. Please contact the Resource Department for more information.
